

Fire safety

No smoking within or outside the property

Test smoke alarms regularly

Turn off power points when not in use

Do not obstruct exits and entrance hallways

When the stove or oven is on do not leave the kitchen

Do not wedge fire doors to allow all fire doors to close fully on their self-closing devices

Strongly advised that BBQ's do not take place in the property or garden due safety of the flammable materials and combustibles

Do not light any form of candles

Do not overload sockets

Do not operate portable heaters within or outside the property

Do not operate gas fires within or outside the property

Note the location of the fire blankets and fire extinguishers
